GREY

- SUS 440C-61° HRC Steel
- Dual removable finger rests

SIZES: 5.8"/6.5" inches

With its subtle grey tones, GREY is distinguished by its elegance. Its powerful blades are available in 5.8" or 6.5". Thanks to its curved thumb ring and natural grip, this scissor is your invitation to unlimited cutting pleasure.

* Recommended hairdresser price, excluding tax. ** Rockwell Degree indicates steel hardness.

AERO

- SUS 440C-61° HRC Steel
- Dual removable finger rests

SIZES: 5"/5.5"/6"/6.7" inches

A basic for men's hairstyling in size 6", AERO is available up to size 6.7" for fans of English cutting techniques and barbers.

DEEP

- SUS 440C-61° HRC Steel
- Built-in finger rest

SIZES: 5.5" inches

A very controlled grip with its comma-shaped finger rest for a comfortable positioning of the little finger on the upper handle. DEEP offers great cutting versatility and ergonomics.

EVER

- SUS 440C-61° HRC Steel
- Removable finger rest

SIZES: 5"/5.5"/6" inches

EVER is one of our best sellers thanks to its very comfortable grip. The 5.5" and 6" size responds to all your cutting techniques. Also available in 5" size for finishing work.

ECHO

- SUS 440C-61° HRC Steel
- Built-in finger rest

SIZES: 5.5"/6" inches

With its offset rings and molded finger rest, ECHO offers a natural and ergonomic grip.

JUMP 30

- SUS 440C-61° HRC Steel
- Removable finger-rest

SIZES: 30 teeth

The JUMP30 thinning scissors offers teeth with a more classic design for more precise and controlled work. It also lets you work in both cutting directions according to the desired effect and style.

JUMP 40

- SUS 440C-61° HRC Steel
- Removable finger-rest

SIZES: 40 teeth

The JUMP40 is the ideal thinning scissors for male hairstyling. A simple design that lets you work the hair in both cutting directions. Teeth above for a direct approach to the surface; teeth below for deeper work without marking the hair. Profiled teeth will completely thin the volume.

JUMP 36

- SUS 440C-61° HRC Steel
- Removable finger rest

SIZES: 36 teeth

Exclusively reserved for left-handed stylists who learned to cut with left-handed ergonomics. The JUMP36 thinning scissors offers a design that lets you work the hair in both cutting directions. Teeth above for a direct approach to the surface; teeth below for deeper work without marking the hair. Profiled teeth will completely thin the volume. Designed for left-handed stylists.

LEFT

- SUS 440C-61° HRC Steel
- Removable finger rest

SIZES: 5.5"/6" inches

Exclusively reserved for left-handed stylists who learned to cut with left-handed ergonomics. LEFT offers a comfortable grip. Designed for left-handed stylists.

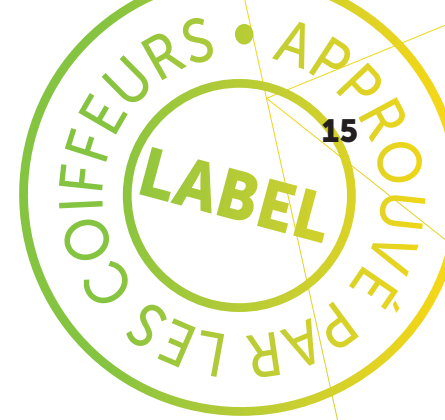

NOVA

- SUS 440C-61° HRC Steel
- Built-in finger rest

SIZES: 5"/5.5"/6"/6.5"/7" inches

With its natural and offset grip, NOVA is one of our best sellers. Barbers and fans of English cutting techniques will love it in size 6", 6.5" or 7". Cutting versatility assured in size 5.5". Also available in 5" for finishing work.

SURF 33

- SUS 440C-61° HRC Steel
- Built-in finger rest

SIZES: 33 teeth

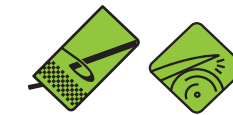

The SURF 33 thinning scissors offers an ergonomic design and a grip that's optimized for thinning and playing with the volume.

SERVICE

The Dune Scissors EUR 169 Range includes 1 checkup/sharpening with no time limit.

This operation includes sharpening, reshaping the tips, adjusting the blade curve, correcting friction points, straightening the handles, and checking and replacing parts like the bumpers and the adjustment screw.
